SAN PELLEGRINO	bottle 0,25 l	2 €
	bottle 0,75 l	6 €

San Pellegrino is a gently sparkling premium table water, produced and bottled in the Province of Bergamo, Lombardy, Italy. The water contains natural and additional carbonation, calcium, chloride, fluorine, lithium, magnesium, nitrogen, potassium, and natural strontium. It originates in a layer of rock far below the surface, where it is mineralized by contact with limestone and volcanic rocks. It emerges from three deep springs located at the foot of a Dolomite mountain wall. Thanks to balanced sodium levels, this mineral water is recommended as a part of a healthy diet.

ACQUA PANNA	bottle 0,25 l	2 €
-------------	---------------	-----

Another product from the range of S. Pellegrino is still water Acqua Panna. The source is located at about 900 meters above sea level in the Apennine Mountains of Tuscany, north of Florence. In the 16th century the powerful Medici family owned the spring and it was fenced off as private property. This water is very lightly mineralised and thanks to strict neutral taste is suitable for gourmet dishes and in conjunction with wine.

EVIAN	bottle 0,33 l	2 €
	bottle 0,7 l	5 €

Evian water comes from a unique geological site - the glaciers in French Alps. The water is a gift from heavens, as it begins its journey in the clouds. As rain and snow fall on the glacier, most of the water will run off, but about 15% of it will infiltrate the subsoil. For more than 15 years, the water will slowly descent through the sands, protected by the moraines and emerge in the springs. This journey enables the water to acquire its characteristic mineralisation and perfect stability.

PERRIER	bottle 0,33 l	4 €
	bottle 0,7 l	8 €

Natural mineral water Perrier comes from the Vergèze spring in Gard in southern France which has been used as a spa since Roman times. Local doctor Louis Perrier bought the spring in 1898 and operated a commercial spa there. He also bottled the water for sale. Perrier mineral water is slowly filtered through rocks and sand, which make it rich in minerals such as calcium, potassium and magnesium. It is naturally carbonated and is characteristic in unique mineral salts, which have beneficial effects on health. Its health-giving properties have even been recognized by the French Academy of Medicine.
